

Bluegrass Family Health

February 19, 2007

Dear Member:

We, at Bluegrass Family Health, understand that much of the success to managing diabetes is attributed to monitoring blood glucose levels. Maintaining close-to-normal levels of blood glucose has been shown to reduce the risk of diabetes-related complications. One of the best ways to prevent problems is to keep your blood sugar levels in your "target-range" – that is the range specified by your health care provider.

Bluegrass Family Health is offering you a choice of blood glucose monitoring systems – **at no charge to you**. Ascensia® brand products by Bayer HealthCare and OneTouch® brand products by LifeScan, Inc., a Johnson & Johnson company, offer the latest in diabetes monitoring technology and make blood glucose testing simple and accurate. You may select one of the following blood glucose monitoring systems:

<p style="text-align: center;">Bayer HealthCare</p> <p style="text-align: center;">Ascensia® Breeze2 system Ascensia® Contour system</p>	<p style="text-align: center;">LifeScan, Inc., a Johnson & Johnson company</p> <p style="text-align: center;">OneTouch® Ultra®2 system OneTouch® UltraSmart® system</p>
<p style="text-align: center;">1-877-229-3777 <u>www.bayerdiabetes.com</u></p>	<p style="text-align: center;">1-888-427-8335 <u>www.OneTouch.orderpoints.com</u></p>

Each system will come with everything you need to begin testing. As of April 1, 2007, the Bayer HealthCare and LifeScan, Inc products (including test strips and lancets) will be the preferred diabetic monitoring supplies on your formulary. This means that you will be charged your 2nd tier co-payment for these products. All other diabetic supplies will be moved to 3rd tier status.

Please accept this special offer by calling one of the numbers below.

- To **order** an Ascensia® meter, call 1-877-229-3777
- For Ascensia ® product information visit **www.bayerdiabetes.com**.
- To **order** a OneTouch® meter, call 1-888-427-8335 or visit **www.OneTouch.orderpoints.com**.

If you have any additional questions about the optimal way to keep your blood sugar under control and lower your risk for diabetes complications, please see your doctor or health care provider.

If you have any questions about your prescription benefits, don't hesitate to contact the Pharmacy Services Department at 1-877-205-6308 or 859-335-3755 Monday through Friday from 8:00 a.m. to 6:00 p.m. EST. And remember, together we can help you manage your diabetes and live your life without limitations.

Sincerely,

Pharmacy Services
